**Tilt In Space**  
**Solutions**

**Quickie IRIS**  
IRIS (Intelligent Rotation In Space)  
The Quickie IRIS rotational design is based on the idea of rotating the seat-frame around a user's center-of-gravity. By providing up to 60° of tilt, the IRIS insures that the majority of pressure is removed from the ischial tuberosities. A new Foot Release Tilt Actuator eliminates cables and provides a more controlled function.  
Weight: 39 lbs  
Width:14" 22" depth 15"- 22"
